# Bank Reconciliation & Cleanup — Service-Based Business

| | |
|---|---|
| Business Type | Service-based business |
| Category | Bank Reconciliation |
| Key Outcome | Established clean reconciliations and month-end readiness |
| Project Type | Simulated/practice project |
| Scope | Bank and transaction cleanup, reconciliation, and reporting readiness |
| Skills Demostrated (2) 1 | Data cleanup, Financial reporting, Month-end-close, Reconciliation accuracy |
| Status | Published |
| Tools Used | Excel, Google Sheets |

## Project summary

This project focused on cleaning up financial records and reconciling bank activity for a service-based business with inconsistent transaction categorization and unreconciled balances.

## Problem

The books contained duplicated entries, unclear expense categorization, and unreconciled bank balances, making it difficult to rely on financial reports or close the month accurately.

## Approach

- Reviewed and standardized transaction descriptions
- Removed duplicates and corrected misclassified entries
- Reconciled bank balances against recorded transactions
- Prepared records for clean month-end close and reporting

## Deliverables

- Cleaned transaction ledger
- Bank reconciliation report
- Categorized expense structure
- Month-end ready dataset

| 31 | **RECONCILIATION STATUS** | | **✓ COMPLETE** | |

Bank reconciliation summary confirming alignment between adjusted bank balance and general ledger balance, with zero variance.

## Outcome

Reconciliations were completed with zero variance, unresolved discrepancies were eliminated, and the books were structured to support reliable month-end close and ongoing reporting.
