Project summary

This project focused on completing a full month-end close in QuickBooks Online for a service-based business, including bank reconciliation, accounts receivable and payable review, and preparation of core financial statements for management reporting.

Problem

Financial records required a structured month-end close to ensure reconciled cash balances, accurate AR/AP positions, and reliable financial statements for review.

Approach

Performed bank reconciliation, reviewed AR and AP aging, validated income and expense activity, and generated standard financial statements directly from QuickBooks Online.

Deliverables

All reports were generated directly from QuickBooks using a live accounting environment.

QuickBooks Bank Reconciliation

QuickBooks Bank Reconciliation.pdf

Bank reconciliation completed in QuickBooks, matching system transactions to the bank statement to confirm cash accuracy, identify discrepancies, and ensure a clean month-end close.

QuickBooks Accounts Receivable Aging Summary

QuickBooks A_RAgeingSummaryReport.pdf

Accounts receivable aging report generated in QuickBooks to assess outstanding customer balances, monitor overdue invoices, and support collections follow-up and cash-flow planning.

QuickBooks Accounts Payable Aging Summary

QuickBooks A_PAgeingSummaryReport.pdf

Accounts payable aging report prepared in QuickBooks to track vendor obligations, prioritize upcoming payments, and maintain controlled cash outflows.

QuickBooks Profit & Loss Statement

QuickBooks ProfitandLoss.pdf

Profit and Loss statement produced in QuickBooks to evaluate operating performance, revenue trends, and expense structure for the reporting period.

QuickBooks Balance Sheet

QuickBooks BalanceSheet.pdf

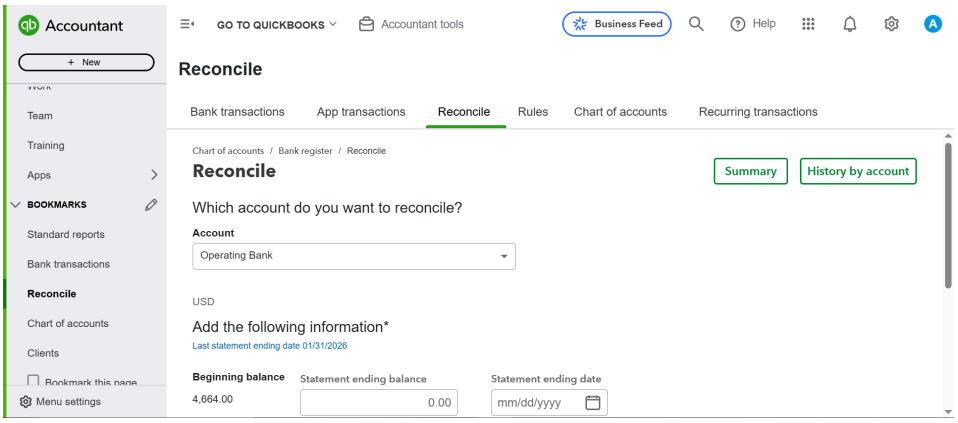
Balance Sheet generated in QuickBooks reflecting the company’s financial position, including assets, liabilities, and equity, after month-end reconciliation.

QuickBooks Statement of Cash Flows

QuickBooks StatementofCashFlows.pdf

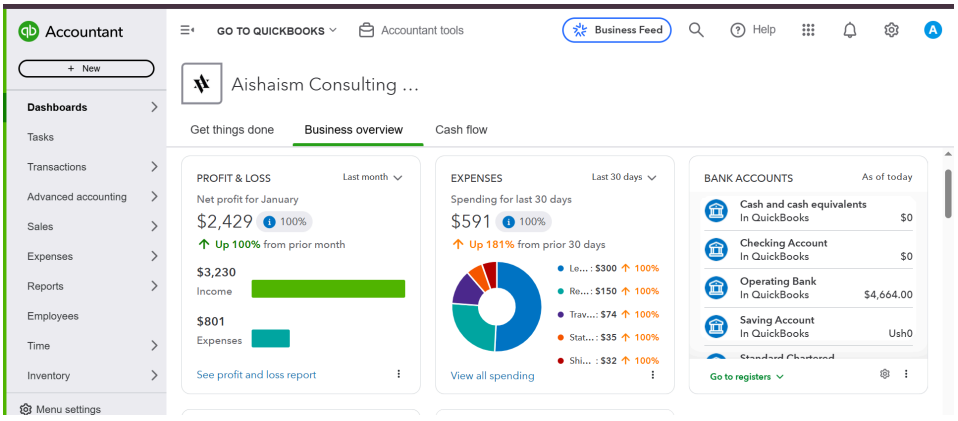
Statement of Cash Flows prepared in QuickBooks to analyze cash movement from operating activities and assess liquidity during the period.

QuickBooks Reconciled Status



Bank account successfully reconciled in QuickBooks, confirming alignment between bank statement activity and recorded transactions, with no unreconciled differences remaining.

QuickBooks Reports Dashboard



QuickBooks reporting dashboard showing access to core financial statements and aging reports used for month-end review, cash monitoring, and financial analysis.

Outcome

Month-end close completed with reconciled cash, validated AR/AP balances, and finalized financial statements ready for management review.
